Adding Color Tags

To manually select a color from the image using the color bubble

1. Click anywhere on image to move color bubble (if it doesn't move)

2. Click, hold, and drag bubble to location of color to be selected

3. Click again on the image to place the color bubble and pick the color

4. Click on Add color

5. Repeat above steps to pick additional colors

6. Click "submit selected colors" to add to item

Tip: Use Auto pick to get the first 6 colors, then delete and add color tags to save time and get the best selection of colors
